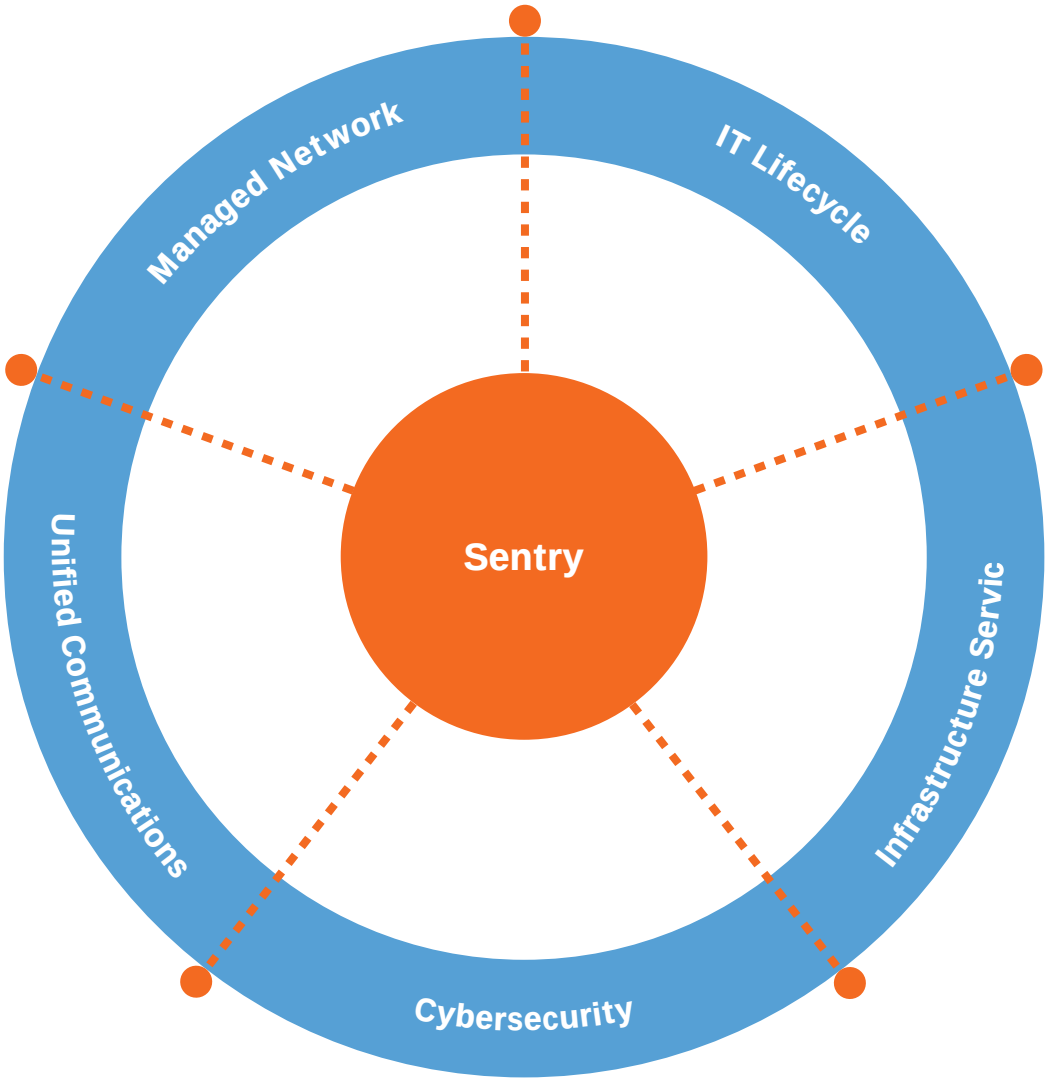
Maintain Peak Performance and Optimal Security with Sentry from Fiserv



Sentry combines innovative solutions based on proven technologies with professional expertise based on our deep understanding of financial institution operations and regulations.

With Sentry, you can deliver and maintain a high-performance IT

Sentry Unified CommuniS

Fiserv takes the hassle out of equipping and maintaining a computing environment by managing the entire process for you. Our services cover servers, workstations, desktops, applications and peripheral devices, coordinating the procurement and implementation process for Fiserv and third-party solutions. Our hardware maintenance services help you eliminate the lengthy delays and frustration caused by computer downtime. We offer a full suite of services specifically designed to minimize computer downtime caused by daily wear and tear, and provide a single point of contact and full coordination for hardware maintenance needs and service.

By utilizing the buying power of Fiserv, Hardware Advantage provides the technology required to support branches and operations including laptops, monitors, printers, phones and servers – all at discounted prices from leading vendors. Hardware Advantage helps you save time and money by procuring the hardware required to run your organization.

Sentry℠ Network Services

Fiserv delivers a high-performance managed network solution that is secure, reliable, scalable and optimized for maximum speed and efficiency. We help you reduce capital expenditures, focus on your core business, optimize IT staffing and scale your infrastructure as needs grow. We provide the integration and operational expertise of a technology partner who fully understands your infrastructure needs.

Fiserv offers leading technology services to meet every aspect of a client's network-related business requirements. Our services include professional network consulting and design, managed LAN and WAN services, branch and guest wireless services, and continuous monitoring services from certified experts. Our strong relationships with leading telecom and network providers enable access to the latest technology – as well as cost savings that we pass on to you.
